

MERCER COUNTY

HEALTH DISTRICT

7th Grade

Immunizations for the 2019-2020 School Year

7th Graders are required to have the Meningococcal A, C, W, and Y vaccine and the Tdap. This Meningococcal vaccine, also known as Menactra or Menveo, has been recommended since 2005. The Tetanus, diphtheria, and pertussis, or Tdap, vaccine has been required since the 2010-2011 school year.

You do not have to wait until 7th grade to be vaccinated. Anyone over the age of 11 is recommended to have the Tdap, meningococcal A, C, W, and Y, Hepatitis A, Human Papillomavirus Vaccine and the 2nd dose of chickenpox vaccine.

The Human Papillomavirus (HPV) vaccine, Gardasil, is recommended for both boys and girls to prevent cancers caused by HPV. 91% of cervical cancers and 72% of oropharyngeal cancers are caused by the Human Papillomavirus. The HPV Vaccine has been given since 2006 with over 86 million doses given. By 2017, the prevalence of female HPV cancer had declined by 71%.

Adolescent Vaccines can be administered at some physician offices, please check with your provider. If you wish to have your vaccines at the Mercer County Health Department, please call 419-586-3251 ext. 1270 for an appointment or to talk to a nurse.

For more information on vaccines go to www.immunize.org or www.cdc.gov
