Results of Mercer County Person under Investigation test come back negative

CELINA- On March 11, the Mercer County Health District (MCHD) reported that a Mercer County resident was being tested for novel coronavirus (COVID-19). Today MCHD is happy to announce that the test result is negative. "While we are pleased that the results are negative, we continue to encourage everyone to take precautions to protect against illness," said MCHD Health Administrator Jason Menchhofer.

COVID-19 has been classified as a pandemic, and Ohio is experiencing community spread. MCHD continues to maintain awareness of the COVID-19 situation on a state and national level and is actively engaged with the local media to ensure that up to date factual information is circulating in the community. The health department also in communication with various community partners, providing information to aid them in making decisions about upcoming events.

MCHD will continue to provide the public with useful information and stands ready to help the citizens of Mercer County. For general information, contact the Ohio Department of Health COVID-19 information line at 1-833-427-5634. For questions relating to Mercer County, contact the Mercer County Health District at 419-586-3251.
