Temporary Food Service Operations Planning & Preparation Questionnaire

1. Complete the form titled "Application for a License to Conduct a Temporary Food Service Operation" and provide the license fee shown at the bottom right hand corner of the form.
2. Provide a cell phone number, if applicable, of a person-in-charge who can be reached during the event, or immediately prior to the event:

3. List here the sources of the foods you will be preparing / serving (where did they come from...grocery or restaurant):

4. Where will the food be prepared (all stages of preparation)? at the event at a licensed food facility
(Note: preparation at a household is not permitted, except for baked goods that meet Cottage Foods definition: cookies, cakes, breads, fruit pies, jams & jellies, candy, fruit butter)

5. How will the food be cooked? (grill, hot-plate, roaster)

(Note: Crock-Pots are not considered to be adequate for cooking foods at these type of events. They are not designed for quick heating.)

Cooking Temperature Reference Guide

Poultry 165°F

Hamburger / Sausage 155°F

Pork chops / Steaks 145°F

Eggs 145°F

Pre-cooked foods (from commercially processed package or can) 135°F

A FOOD THERMOMETER IS REQUIRED TO BE PRESENT AT ALL TIMES AT YOUR STAND

6. How will hot (cooked) foods be held during the duration of the event? Hot foods to be **135°F** at all times

(Note: We will accept Crock-Pots as a holding device, only after foods are initially heated through.)

How will cold foods be held at **41°F** at all times?:

(Note: We will accept ice as long as there is a ready supply, and as long as the food containers are totally surrounded by ice on all sides.)

7. How will food be protected from contamination? **Please check-mark the items below to indicate that these items will be provided.** Ways to protect food:

- Gloves for handling ready-to-eat foods

- Provide durable, non-absorbent containers for stored foods and paper products (plates, cups, napkins, utensils). Check Box5refCheck Box5erably, keep containers up off the ground / floor.

- Separate raw meats from ready-to-eat foods while being stored, or prepared.

- Hair restraints for workers preparing / serving food. (Can be baseball hat, scarf or bandanna, hair net)

- Proper hand washing: by providing a temporary hand washing station, supplied as depicted below:

8. Where will you obtain your water?

9. Will you be using tap water to make drinks or ice? yes no

If yes, the water must be from a public water source or from a tested private water source.

10. How will you provide hot water for washing utensils and surfaces during the event? You are required to utilize a wash, rinse and sanitize procedure on all food contact utensils.

11. What type of sanitizer will you use for sanitizing food contact utensils / surfaces? Note: Acceptable sanitizers include: chlorine (bleach), quaternary ammonia (tablets), or iodine.

Sanitizers are mixed with water at specific concentrations to be effective. Bleach / water solutions require 50 ppm chlorine, which can easily be achieved by mixing 2 tablespoons bleach per typical dish pan sized tub. Other sanitizers mixing instructions can be found on their labels.

12. Where will you dispose of your wastewater?

13. Provide a drawing (sketch) of how your stand will be set up. Show where you are going to place your tables and cooking equipment, handwashing station, 3 dish pans for washing, rinsing and sanitizing utensils, and storage of supplies.
